

— Till Mar. 15/ 2009 —

Lots of action on the full Moon 10th continuing to the 13th! People are edgy but meditation settles you down. Financial disaster has been predicted previously — till 2012 actually! Along with martial-law, unrest, etc.

Aries Venus will stay in Aries for months! It brings a shake-up in value-systems as you are somehow put on hold in this area.

Gemini Restless inspiration rains down again — you'll feel like travel events as imaginative energies push you out the door!

Taurus Career energies move

on to business associates after the 15th but first you'll be busy with business decisions taking you over the top! Finances go well too!

Cancer Partners gain a certain charisma — be sure they're not mafia-style as they become even more determined.

Leo: Partners still have all the action while you may feel left behind — it will change — let your partners have some spotlight for a change.

Virgo: Determined people work for your gain; allow them freedom to direct themselves; view the activity as fun and games or you'll get stung trying to help!

Libra Fun and games involve true inspiration; relationships can take a new turn; expect

this to continue for months. **Scorpio:** There's no relief in sight regarding home front issues. Energy demands may result in financial gain but you'll have to work for it. Things flow after the 15th.

Sagittarius Community event activities move to home front surroundings after the 15th; fun and games require some meditation and change in attitude.

Capricorn Demanding energies have to be expended to make the bucks! But the gains are waiting with inspiration to enjoy too!

Aquarius: Wore out yet? Energies will be more relaxed after the 15th when personal popularity and inspirations can be put to financial gain.

Pisces Hang onto your hat as unique ideas and events form tornadoes around you. After the 15th you'll be energized to put those inspired

ideas into action!

Successful Predictions: August 20, 2001 I predicted on these pages a 911 tragedy to occur within 30 days. Previously I predicted the exact day the bombing would stop in Serbia several weeks in advance. Unfortunately, the New World Order types also time events to coincide with what disasters astrologers suggest will happen.

I offer a monthly update on your individual horoscope if you wish to receive this for a small fee.

Working with (against?) 5 separate former CIA physicist contractors working in parapsychology institutes I was able to expose the true source of "remote viewing" and determine CIA moles still recruiting natural psychics — sometimes operating in Toronto. My remote viewing course is for peaceful purposes.

Obama's Mercury-Retrograde swearing-in causes still another and third appointed cabinet candidate having to step forget it!

Our 2012 Predictions Now In Formation:

Our ex-patriate Canadian friend and supporter Ben Fulford descended from Polish Jews confirms our economic analysis: We have to look for companies that are real.

In 1913 when the bankster cabal made up of **J.P. Morgan**, etc. met on Jekyll Island using false names, they invented banking legislation to enslave the U.S. and beyond.

In astrology it was the founding of President Wilson's so-called 'Federal Reserve' banking system. It was neither 'federal' nor did it have a 'reserve'.

So, today, it still exists under the control of just a few families. Recently, **J.P. Morgan Bank** has taken over a number of \$50 Billion household bank names like **Bear-Stearns** with the direct help of the 'Fed'. When

too many of these take-overs were taking place in a too-obvious pattern of mass take-overs (J.P. Morgan bankers shared directors who sat on the Fed board of directors) it became necessary to draw in another bank to appear they were not in **total control** of U.S. banking. The **Bank of America** was therefore chosen and its CEO Ken Lewis more or less had a gun pointed at his head wherein he too reluctantly took over large banks and defunct mortgage companies. Bank of America of course, is allied with the Vatican in certain areas.

President Wilson's death-bed cries were based on having permitted the bankster cabal to steal from his citizens.

New World Orders direct all finances.
