"The Fight of All Fights" by Walter Burien
The release on December 25th 2008 of the video "The Biggest Game in town" on Google is having great effect. More and more people

come forward to exonerate this work. People have noticed and they are spreading the word. Google is the largest and most used search engine in the world and in spite of the hit count numbers Being Fudged, it looks like the

video has had over 2.5 million views in three months (that blows away all other videos from all dates for a video of that length on the issues presented) All politicians, individuals, groups, new services, Talking Heads, etc.

A regular web search on Google for "Government Wealth" the CAFRI site is hit #1 and the video is displayed as hit #1, it also is on Google video under "government wealth" as the #1 video. Also on regular

Vatican promotes Islamic finance in face of global crisis

'Western banks could use tools such as the Islamic bonds' Vatican says Western banks should look at rules of Islamic finance to restore confidence amongst clients.

ROME - The Vatican said banks should look at the rules of Islamic finance to restore confidence amongst their clients during the current global economic crisis.

"The ethical principles on which Islamic finance is based may bring banks closer to their clients and to the true spirit which should mark every financial service," the Vatican's official newspaper Osservatore Romano said in an article in its latest issue.

The article argues that "Western banks could use tools such as the Islamic bonds,

known as sukuk, as collateral".

Sukuk may be used to fund the "car industry or the next Olympic Games in London," it said. The article also said that profit share, gained from sukuk, may be an alternative to the interest, underlining that the sukuk system could help automotive sector and support investments in infrastructure area.

Using the Islamic sukuk system, money

would be invested in concrete projects and profit share - instead of interest earned - is distributed to clients.

The Osservatore's editor, Giovanni Maria Vian, said that "the great religions have always had a common attention to the human dimension of the economy," Corriere della Sera reported.

Ukraine fraudsters caught stealing Russian gas again!

By Mary Dejevsky

Armed agents of Ukraine's national security service raided the head office of the state energy company, Naftogaz as part of an investigation into the alleged diversion of gas.

The precise terms of the deal have not been

released. Kiev agreed to pay \$360 per 1,000 cubic metres of gas, a 20% discount on the market price, while Russia received a 20% discount on pipeline transit fees. Both are to pay full market prices from 2010.

The raid on Naftogaz's headquarters came 3

days before Ukraine's next gas payment is due, and many fear that Ukraine - whose currency has lost a third of its value against the US dollar - will not be able to pay, triggering a new gas cut-off.

One partial solution being mooted is that

Ukraine, whose industry has been hard hit by the international credit crisis, could reduce its bill by negotiating a 25% reduction in supplies. But Kiev is also hoping the IMF will release the second tranche of a \$16.5bn (£12bn) standby credit The IMF is waiting for assurances on Ukraine's budget; unofficially, it is said to want additional guarantees, after a part of the first tranche vanished into unidenti-

Bob Chapman: As the much greater depression progresses

Gold price suppression still at work and you can benefit from it now, how we would love to be hangmen to the criminals who caused this financial crisis, fiat currency now used to pilfer wealth, Dow will never return to 14000, stimulus for hyperinflation, trillions lavished on bankster-gangsters, Japan's lost decade

For once we can thank the criminal miscreants in the gold cartel for all their suppressive efforts. As they buy time for themselves so they can bail out of dollar-denominated paper assets and roll the proceeds over into gold, silver and other real tangible assets on the cheap via the scheme we have referred to often as the Big Sting Two, they are also letting everyone else in the general public have more time to learn about gold and silver while precious metals are still affordably priced. These financial sociopaths are giving newsletter writers like us, and the hard money community in general, more time to educate the public about the nature of money, about inflation and about what they can do to protect themselves and their financial future with gold, silver and their related assets. In the end, their criminal enterprise will turn out to be self-defeating.

The more gold and silver the public has a chance to acquire in order to protect themselves against the corrosive effects of hyper-

stagflation and a high risk financial environment, followed by the devastating impact of deflation and depression, the more people there will be to fight effectively against the move toward world government as the elitists destroy the world economy to pave the way for their One World Disorder. The more gold and silver we, the general public, own, the less power the elitists will have over us as the world financial system unravels and these fiends attempt to enslave us in a one-world police state which they intend to create out of the ensuing social, political and financial chaos. What they will get out of the ensuing chaos is violence, social upheaval and revolution, followed by trials, recriminations, confiscations of their property and striped suits.

If the public is in need of hangmen, we will gladly volunteer our services to pull the pins on the trap doors to ensure that these malevolent, megalomaniacal miscreants receive their final comeuppance.

Rest assured that these miscreants already own, and are acquiring with great speed, ever greater private reserves of gold and silver in all forms, because they, of all people, know that gold and silver are the only real money in a world full of "worthless paper," paper which they themselves created in order to rip off the hard-working masses. By various methods of

fraud and deceit, they are using fiat currencies to pilfer the wealth, which the common folk have earned with their blood, sweat and tears. As Dr. No, Representative Ron Paul, said recently: "It's immoral to transfer wealth from the productive to the non-productive members of society." But that is precisely what these lazy louts intend to do to you if you allow them to. Incidentally, they are only lazy when it comes to earning an honest living. When it comes to plundering and raping the public through criminal enterprise, they are anything but lazy. Don't be lazy louts like them when it

comes to earning honest gains via gold, silver and their related assets.

You must buy precious metals to protect yourself, along with freeze-dried food, water filters, weapons and ammunition, and keep buying them until you run out of resources as the economy goes belly up. These are your only salvation aside from God Almighty Himself, and He also expects you to take action and prepare for what lies ahead.

The ability to have a big rally and final blow-off top in the stock and bond markets to complete the Big Sting Two is now impossible. There isn't enough fiat paper in the world to rescue the system.

Be Healthy Or Rot!!

Researched by Victor The Health Guru

OR=1.2, 95% CI=0.9-1.7. Regarding acoustic neuroma OR=1.0, 95% CI=0.8-1.1 was calculated increasing to OR=1.3, 95% CI=0.97-1.9 with 10

Epidemiological evidence for an association between use of wireless phones and tumor diseases

Pathophysiology. Hardell L, Carlberg M, Hansson Mild K. Department of Oncology, University Hospital, SE-701 85 Orebro, Sweden.

During recent years there has been increasing public concern on potential cancer risks from microwave emissions from wireless phones. We evaluated the scientific evidence for long-term mobile phone use and the association with certain tumors in case-control studies, mostly from the Hardell group in Sweden and the Interphone study group. Regarding brain tumors the meta-analysis yielded for glioma odds ratio (OR)=1.0, 95% confidence interval (CI)=0.9-1.1. OR increased to 1.3, 95% CI=1.1-1.6 with 10 year latency period, with highest risk for ipsilateral exposure (same side as the tumor localisation), OR=1.9, 95% CI=1.4-2.4, lower for contralateral exposure (opposite side)

year latency period. For ipsilateral exposure OR=1.6, 95% CI=1.1-2.4, and for contralateral exposure OR=1.2, 95% CI=0.8-1.9 were found. Regarding meningioma no consistent pattern of an increased risk was found. Concerning age, highest risk was found in the age group <20 years at time of first use of wireless phones in the studies from the Hardell group. For salivary gland tumors, non-Hodgkin lymphoma and testicular cancer no consistent pattern of an association with use of wireless phones was found. One study on uveal melanoma yielded for probable/certain mobile phone use OR=4.2, 95% CI=1.2-14.5. One study on intratemporal facial nerve tumor was not possible to evaluate due to methodological shortcomings. In summary our review yielded a consistent pattern of an increased risk for glioma and acoustic neuroma after >10 year mobile phone use. We conclude that current standard for exposure to microwaves during mobile phone use is not safe for long-term exposure and needs to be revised.
